

College Name: .....

D. Pharm First Year

Session: 2022-23

Assignment – II (33% Syllabus Covered)

| <b>S. No.</b> | <b>ENROLLMENT NO.</b> | <b>STUDENT NAME</b> | <b>TOPIC OF PHARMACEUTICS</b>                        |
|---------------|-----------------------|---------------------|--|
| 1.            |                       |                     | Filtration   |
| 2.            |                       |                     | Membrane filter                                      |
| 3.            |                       |                     | Sintered glass filter                                |
| 4.            |                       |                     | Fluidized bed dryer                                  |
| 5.            |                       |                     | Freeze drying  |
| 6.            |                       |                     | Drying   |
| 7.            |                       |                     | Tablet and type of tablets                           |
| 8.            |                       |                     | Excipients used in Tablet manufacturing              |
| 9.            |                       |                     | Methods of tablet manufacturing                      |
| 10.           |                       |                     | Sugar coating of tablet                              |
| 11.           |                       |                     | In Process Quality Control System (IPQC) for Tablets |
| 12.           |                       |                     | Evaluation of Tablets                                |
| 13.           |                       |                     | Hard gelatin Capsule                                 |
| 14.           |                       |                     | Soft gelatin Capsule                                 |
| 15.           |                       |                     | Capsule and type of Capsules                         |
| 16.           |                       |                     | Capsule shell Manufacturing                          |
| 17.           |                       |                     | Evaluation of tablets                                |
| 18.           |                       |                     | Liquid oral preparations                             |
| 19.           |                       |                     | Solution   |
| 20.           |                       |                     | Syrup  |
| 21.           |                       |                     | Elixir   |
| 22.           |                       |                     | Emulsion   |
| 23.           |                       |                     | Suspension   |
| 24.           |                       |                     | Dry powder for reconstitution                        |
| 25.           |                       |                     | Topical preparations                                 |
| 26.           |                       |                     | Ointments  |
| 27.           |                       |                     | Creams   |
| 28.           |                       |                     | Pastes   |

|     |  |  |  |
|-----|--|--|--|
| 29. |  |  | Gels   |
| 30. |  |  | Liniments  |
| 31. |  |  | Lotions  |
| 32. |  |  | Suppositories  |
| 33. |  |  | Pessaries  |
| 34. |  |  | Filtration   |
| 35. |  |  | Membrane filter                                      |
| 36. |  |  | Sintered glass filter                                |
| 37. |  |  | Fluidized bed dryer                                  |
| 38. |  |  | Freeze drying  |
| 39. |  |  | Drying   |
| 40. |  |  | Tablet and type of tablets                           |
| 41. |  |  | Excipients used in Tablet manufacturing              |
| 42. |  |  | Methods of tablet manufacturing                      |
| 43. |  |  | Sugar coating of tablet                              |
| 44. |  |  | In Process Quality Control System (IPQC) for Tablets |
| 45. |  |  | Evaluation of Tablets                                |
